Allowable Subject Matter

Applicants appreciate the Examiner's acknowledgement that claims 6 and 7 are allowable. Applicants submit that the amendment to claim 6 merely clarifies the present invention and claims 6 and 7 should be allowed.

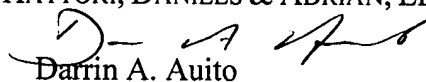

Claim 11

In accordance with the Examiner's suggestions, claim 11 recites that *said nozzle is adapted so as to be rotatable in the periphery direction thereof in a state that said syringe is not rotated in the peripheral direction thereof*. As discussed in the Examiner Interview, Kitamura fails to teach a nozzle that rotates in the manner described in this claim. Accordingly, Applicants respectfully request that the Examiner allow claim 11.

Conclusion

If this paper is not timely filed, Applicants respectfully petition for an appropriate extension of time. The fees for such an extension or any other fees that may be due with respect to this paper may be charged to Deposit Account No. 50-2866.
